BIREL ART

Tradition and Innovation

We represent a company where tradition and innovation come together every day to feed the legend of the Birel ART brand. Our plus is the ability to combine the development of advanced technological solutions with the craftsmanship and experience that distinguishes us.

Passion and Excellence

The passion for motorsport is the sap that drives us to set ambitious goals to satisfy our customers. We are always in step with the times, curious and open to new things to grow our skills and offer excellence.

Individual and team

Our company is a big family with a strong sense of belonging, human resources are very important for us and ours is a team where competence and passion always go hand in hand.

Emotion

Birel ART - for more than 60 years we have continued the passion for a sport that has formed and continues to train all the F1 drivers. With heart, pride and enthusiasm we keep alive the passion for the racing world and allow all those who love the thrill of driving to be able to do it in great safety and at high technical levels and performances.

« For those who like racing, I advise the karting
and to do it with love and dedication. »
Ayrton Senna - December /1982
